The question is whether he should grant the necessary scholarship which the candidate from the State desires to have tenable in the Med. College or refuse his permission to do until the completion of 5 years service with the usual bond agreement? I should prefer the latter course though it may be somewhat hard but seeing that this boy does not belong to Bombay, she seems to deserve no pity. Granting however as it is it would have commenced to become valid from 1st April, in this dept. She should also be asked to explain why she applied for a Govt. of India scholarship without the knowledge of our Govt.
